

Pillar 3 Disclosures - As at 30th September 2019

Executive Summary

The Pillar 3 disclosures are important reporting requirements as per AMBD & Basel. AMBD is of the view that enhancing market transparency is best supported by the provision of disclosures based on a common framework. Pillar 3 disclosures (market discipline) act as an effective means of informing the market about the risk position of a bank in a consistent and comparable manner.

In recognition of the increased risk sensitivity of the disclosure and the general trend toward more frequent reporting in capital markets, BIBD is required to disclose its Tier 1 regulatory capital ratio, its total regulatory capital adequacy ratio and the total amount of its regulatory capital on a quarterly basis.
