

Pillar 3 Disclosures - As at 31st March 2020

Executive Summary

The Pillar 3 disclosures are important reporting requirements as per AMBD & Basel Committee on Banking Supervision (BCBS). AMBD is of the view that enhancing market transparency is best supported by the provision of disclosures based on a common framework. Pillar 3 disclosures (market discipline) act as an effective means of informing the market about the risk position of a bank in a consistent and comparable manner.

In recognition of the increased risk sensitivity of the disclosure and the general trend toward more frequent reporting in capital markets, BIBD is required to disclose its Tier 1 regulatory capital ratio, its total regulatory capital adequacy ratio and the total amount of its regulatory capital on a quarterly basis.

Table (1) - Consolidated Capital Structure as at 31st March 2020.

Tier 1 Capital	Amounts in BND '000s
Core capital (Tier 1 capital) before dividend	1,252,520
Less: Dividends to be proposed for the financial year	(133,209)
Core capital (Tier 1 capital) after dividend	1,119,311
Supplementary capital (Tier II capital)	16,118
Less: Investment in Associates and Subsidiaries	(7,080)
Total Regulatory capital after deductions (Capital Base)	1,128,349

Table (2) - Capital Adequacy as at 31st March 2020

Quantitative Disclosures	RWA Amount (BND 000's)
Capital Requirements	
1. Credit Risk – Standardized Approach	5,630,266
2. Market Risk – Standardized Approach	1,811
3. Operational Risk – Basic Indicator Approach	621,816
Total	6,253,893
Capital amount	
1. Tier 1	1,119,311
2. Total Regulatory Capital	1,128,349
Capital Ratio	
1. Tier 1	17.90%
2. Total Regulatory Capital	18.04%
